

*I wanted to thank the Women's Club for helping me out through the last year of my nursing school.*

*Time flew by so quickly, and I'm proud to say that I am attending my pinning ceremony tonight and my graduation this coming Thursday! Life has thrown so many hurdles my way especially this past semester, and I thought that I was going to quit nursing school due to stress. Thank God and support from family I was able to get through the last semester.*

*I am looking forward to taking a summer class, and a full load in the fall at Central Piedmont, and applying to UNCC for RN to BSN bridge program next spring!*

*Thank you again for your financial support!*

*Blessings to each one of you,*

*Ella Pomerlyan*
